## DETAILED ACTION

### *Response to Arguments*

Applicant's arguments with respect to claims 1-15 have been considered but are moot in view of the cancellation of claims 1-15.

Applicant's arguments, see Remarks, filed 1/26/2007, with respect to the objection to the specification have been fully considered and are persuasive. The objection of the specification has been withdrawn.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless - (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by Adair (US Patent No. 2,431,679).

Adair discloses a water injection system for an internal combustion engine having a container for storing cleaning solution (T), a suction generator having a tapered middle section (31), a nozzle at the tapered air passage (37, C) and a pivotal shaft and blocking plate at the center of the suction generator (33).

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art not referred to are Dore (US 3778039), Miller (US

4448153), Masaki (US 4091780), and Kirmss (US 3875922), who disclose water injection systems for engines having spray nozzles and throttles.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
